

Public Transportation

With the heavy increase in traffic volume over the years, it's an excellent idea to use public transportation to get around the lower mainland. Not only will this reduce the hassle of commuting by automobile, it will help reduce greenhouse gas emissions – an ongoing issue contributing to the global warming effect. Below are a few suggestions on how to reach Choices Markets using either bus or SkyTrain. This is not a complete list, as BC Transit has excellent coverage throughout the province.

Please note that the listed times are all based on the midday/weekday bus schedule. You are advised to check the TransLink Trip Planning website for specific times and bus routes in your area.
